

Amaka Eneanya, MD, MPH

Chief Transformation Officer
Emory Healthcare (7/16/2023)

Email: amaka.eneanya@emoryhealthcare.org | Tel: 404.686-7085

Amaka Eneanya, MD, MPH joined Emory Healthcare as the Chief Transformation Officer in July 2023. In this role, Amaka leads transformation of patient, clinician and community experience to best in class. As a member of the executive team, the CTO aligns and engages key clinical and operational leaders on performance improvement and transformative change centered around all aspects of patient, clinician and community experience. These initiatives are coordinated across multiple disciplines, with input from hospital and ambulatory leaders, and aligned with the operational strategy and strategic vision of the healthcare system.

Prior to joining Emory, Amaka served as the Head of Strategy and Operations in the Global Medical Office of Fresenius Medical Care, where she led a team that managed global and medical enterprise risk, compliance, sustainability, and health equity.

Her research and clinical experience focuses on patient-centered care and health equity. Her scholarship surrounding the use of race in eGFR equations led to national and international changes in how patients with kidney disease are diagnosed and managed. She has over a decade of patient care experience as a board-certified internist and nephrologist. In addition, she has an extensive track record of teaching and mentoring.

Dr. Eneanya has published numerous manuscripts in leading academic journals (including *New England Journal of Medicine*, *Journal of the American Medical Association* and *Journal of the American Society of Nephrology*) and has received several prestigious awards in the last several years including Fellow of the American Society of Nephrology, 40 under 40 Leader in Minority Health from the National Minority Quality Forum, and the Radhika Srinivasan Award for Humanism and Professionalism in Medicine from the Department of Medicine at the University of Pennsylvania. She has also been featured in major media outlets including the *New York Times*, *NPR – Weekend Edition*, *Consumer Reports* and *Scientific American*.
